

Three-man

The OFFICIAL, fucking rule book.

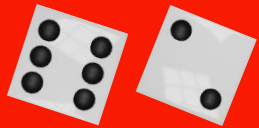

Standard rolling procedure

- Starting with the player who proposed the game, play will generally proceed to which ever direction they so choose.
- The player will roll two six-sided dice.
- If the roll results in another player having to drink, the rolling player takes another turn. The rolling player continues taking turns until either no one drinks (dead roll) or they become the Three-man.
- Play ends when there is nothing left to drink, the cops show up, or the orgy starts. (Seriously though, stop whenever you want)

The Commandments

- A one and a two and you become the Three-man!  
- Anytime a player rolls a three you must drink. 
- Every three that appears on a single die, YOU DRINK!!  
- Double threes DRINK TWICE!!!  
- A four in any combination is a social. Everyone drinks.  
- Seven, the player to the left of the roller drinks.  
- Eleven, the player to the right of the roller drinks.  
- Snake-eyes. Make a rule!  
- Double fives, all players put one thumb down on the table. Last one to do so drinks.  

Doubles & Troubles

- When doubles are rolled, the roller may pass one or both out to one or two other players. The player or players must participate in a challenge roll. The aim of the challenge roll is to roll doubles again! If the challenger or challengers roll doubles the player who passed the dice out must drink their drink and the drink/s of the challenger/s. If the challenger/s roll anything else, they drink.

EXAMPLE 1: Alpha rolls double fours and passes a four to Bravo and a four to Charlie. Bravo and Charlie each roll sevens. Alpha drinks all three of their drinks.

EXAMPLE 2: Alpha rolls double twos. First, since the roll is a four, everyone drinks because of the social. Second Alpha passes out the dice to Bravo and Charlie. Bravo rolls a six. Charlie rolls a one. Since they failed to roll doubles, they drink. Alpha may roll again to start the next round.

- Sloppy Dice drinks twice! If at any point during the game, a player drops a die off the table or out of the play area they must drink twice and reroll any errant die.
- Snake-eyes limits: You may NOT single a player out. You can NOT alter the commandments.

EXAMPLE: “Eight to Kate”, while amusing, is illegal. However, a rule like “Six for chicks”, targets a group, therefore it is legal.
